

STANDARD FORMULARY

January 2017
INTRODUCTION

Foreword

The HometownRx Standard Formulary is a useful reference for drug product selection. The goal of the Drug Formulary is to enhance the physician and pharmacist's abilities to provide optimal cost effective drug therapy for patients. Ultimately, specific drug selection for an individual member is dependent on your prescriber.

The Formulary is a continually reviewed and revised list of drugs, which mirror the prevailing clinical opinion of the Pharmaceutical & Therapeutics and Formulary Committees. Due to this continual review process, the HometownRx Standard Formulary may not be a complete list of all covered drug products and is not meant to be comprehensive in nature. Formulary change notices will be provided as necessary.

Benefit Coverage and Limitations

The Drug Formulary is a list of covered and preferred drug products for members. The Standard Formulary is a closed formulary and any drug not found in this Formulary listing shall be considered a Non-Formulary drug. If you choose to use a Non-Formulary medication HometownRx may not reimburse for these drug products and may require you to pay 100% of the cost. Furthermore, if you choose to use a drug that is not on formulary or excluded, the cost, does not accumulate towards meeting your annual deductible or out-of-pocket maximums.

In addition, certain classes of medication are not covered under your pharmacy benefit. These medication classes include: non-FDA approved drugs, over the counter (OTC) medications, drugs to treat impotency or sexual disorders, fertility agents, weight loss drugs, hemantinics, reusable needles, disposable syringes, ostomy supplies, infant formulas, dietary supplements, hypopigmentation agents, diagnostic agents, cosmetic medications, and compounded medications.

An ancillary charge/member paid difference may apply to brand medications when an equivalent generic is available. If a member or provider chooses a brand product over the generic the member may be responsible for their copay plus the cost difference between the brand medication and the generic medication. Ancillary charges do not apply toward your deductible or out-of-pocket maximum.

The Drug Formulary applies only to outpatient drugs provided to members, and does not apply to medications used in inpatient settings. If a member has any specific questions regarding their coverage, they should contact HometownRx at 1-844-373-0970.

How to Use the Formulary

The Formulary is organized by sections either by drug class or disease state and then by the name of the drug product in alphabetical order. All drug names and strengths listed are included in the formulary. The formulary denotes all medications by product name, strength and dosage form. Generics are denoted in lower case letters by the ingredient name and the formulary will only denote the proprietary – brand names in capital letters that are covered on the formulary.

LAST REVISED 03/16/2017

STANDARD FORMULARY

January 2017
INTRODUCTION

For all products within the Drug Formulary, the tier level is denoted throughout the document using the following symbols in the legend below. See your schedule of benefits for the cost sharing you will pay for a given tier.

LEGEND	
TIER	DESCRIPTION
1	Generic Drugs
2	Preferred Brand Drugs
3	Non-Preferred Brand or Generic Drugs
4	Specialty Pharmaceutical Drugs
5	Preventive Drugs

For certain agents within the Drug Formulary, a recommended prescribing guideline may apply. These prescribing types include Quantity Limit, Prior Authorization, Step Therapy, Age Limits, Max Fill Limits, and Max Days' Supply which are denoted throughout the document as described below.

TYPE	DESCRIPTION
QL	Quantity Limit There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
PA	Prior Authorization You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
ST	Step Therapy In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
AL1	Age Limit This prescription drug may only be covered if you meet the minimum or maximum age limit.
MFL	Max Fill Limit There is a limit on the number of times this drug can be refilled.
MDS1	Max Days Supply There is a limit on the amount of this drug that is covered.

INTRODUCTION

Formulary Drug descriptions*

To assist in understanding which specific drug products are covered, examples are noted below. All covered strengths and dosage forms are specified within the Formulary.

Preferred Generic Drugs:

atorvastatin 20 mg tablet

1

Preferred Brand and Non-Preferred Generic Drugs:

WELCHOL 625 MG TABLET

colesevelam hcl

2

Non - Preferred Brand and High Cost Generic Drugs:

FIBRICOR 35 MG TABLET

fenofibric acid

3

Specialty Drugs:

REPATHA 140 MG/ML SURECLICK

evolocumab

4

Preventive Drugs:

junel fe 24 tablet

5

* The examples described in this section are for demonstration purposes only and may not reflect what is actually on formulary.
