

Pre - Authorization FAQ's

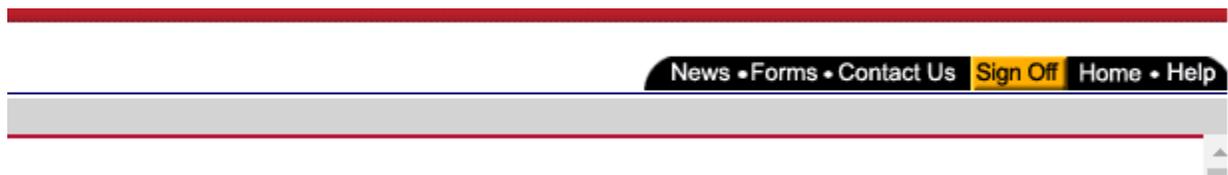

Q: Why did my authorization deny?

A: You will find your denial reason by going to Referrals, then select Referral Status, find the Denied authorization, click on the + sign to open, and then look under Payer Notes.

Q: I am unable to enter all my clinical notes into the space provided due to a character limit.

A: You can type your notes into a word document, then Copy/paste into HealthConnect to override character limit. You may also scan copy and paste from their EMR system.

Q: I am not sure if HTH received my attached clinical documentation.

A: Go up to Referrals, then select Referral Status, find the authorization, and if clinical is attached you will see a paperclip, you can click on it to open up if you want to view it.

Pre-Authorization Tips

- The first 12 Mental Health, Substance Abuse and Nutrition visits do not require clinical documentation. After 12 visits, please indicate that the auth request is for visits above the initial 12 visits and include clinical records.
- Office visits without procedures do not require clinical documentation
- For Physical Therapy, Occupational Therapy and Speech Therapy visits above 20 - please indicate that the auth request is for visits above the initial 20 visits and attach Clinical records.
- For any visits above the benefit limit, please indicate that the auth request is for visits above the benefit limit. Clinical records are required
- Out of Network Specialty labs always require an authorization.
- Durable Medical Equipment Requests - when requesting # of visits, please request the number of visits and not units. The number of visits will equal the number of times that you are going to bill during the authorization time frame.
